Billing itself as a companion text for religious studies methodology courses, Cox's Guide presents the thought of a wide range of key thinkers whose work has contributed to the development of the 'phenomenology of religion'. One of the book's virtues is its inclusion of important but oft-overlooked figures who straddle the philosophy-theology divide: Albrecht Ritschl, Wilhelm Herrmann, A. G. Hogg, and Ernst Troeltsch, among others.

<p>This paper is a practical guide to neurophenomenology. Varela's neurophenomenological research program (NRP) aspires to bridge the gap between, and integrate, first-person (1P) and third-person (3P) approaches to understanding the mind. It does so by suggesting a methodological framework allowing these two irreducible phenomenal domains to relate and reciprocally support the investigation ...
