I'm still reasonably new to the VCDS game, currently trying to assist my girlfriend's father with his 1992 Audi S2 (ABY). An auto-scan doesn't yield much in the way of useful information, that G28 fault was thrown purely on account of us not having the engine fired up during the initial scan. There was an earlier lambda probe fault, cleared some time ago and which has never returned since.

The Porsche 928 is a luxury grand tourer produced by Porsche AG of Germany from 1978 to 1995. Originally intended to replace the company's iconic 911, the 928 combined the power, poise, and handling of a sports car with the refinement, comfort, and equipment of a luxury sedan. Porsche executives believed such a flagship would have wider appeal than the compact, quirky and sometimes difficult to ...
