Berkeley Db With Java Bindings

WARNING:

SerialBinding should
not be used with
Berkeley DB Java
Edition for key
bindings, when a
custom comparator is

Download Ebook Berkeley Db With Java Bindings Vs Edition

used. In JE, comparators are instantiated and called internally at times when databases are not accessible. Because serial bindings depend on the class catalog database, a serial binding cannot be used during these times.

SerialBinding (Oracle - Berkeley DB Java API)

Berkeley DB is a

Download Ebook Berkeley Db With Java Bindings Vs Edition

software library intended to provide a high-performance embedded database for key/value data. Berkeley DB is written in C with API bindings for C++, C#, Java, Perl, PHP, Python, Ruby, Smalltalk, Tcl, and many other programming languages. BDB stores arbitrary key/data pairs as byte arrays, and supports multiple data items for a single key.
