The first human inhabitants of the Japanese archipelago have been traced to prehistoric times around 30,000 BCE. The Jōmon period, named after its cord-marked pottery, was followed by the Yayoi period in the first millennium BCE when new inventions were introduced from Asia. During this period, the first known written reference to Japan was recorded in the Chinese Book of Han in the first ...

In his recent—and excellent—study of the development of world history, *Navigating World History*, Patrick Manning remarks on the lack of intersection between social history and world history as the two fields have developed over the last several decades. World history and the history of women, gender, and sexuality have also seen relatively few interchanges, which
