Fisher Flying Products is a Canadian aircraft manufacturer that produces kits for a wide line of light aircraft. The company's kits all feature wooden construction with aircraft fabric covering. Many of the designs are reproductions of classic aircraft, such as the company's 80% Fisher R-80 Tiger Moth that is based upon the de Havilland Tiger Moth.

Before "Maverick," his biggest domestic debut was in 2005, with Steven Spielberg's "War of the Worlds," which opened to \$64 million. After that it was "Mission: Impossible — Fallout" with \$61 million in 2018. It's not that his films don't make money in the long run: They just aren't enormously frontloaded.

In the best of worlds, they might even be ready to share some of the material with Finnish intelligence, as while the Finnish Air Force does operate a SIGINT-aircraft, there might certainly be some ...

### Corporal Frisk - Finnish blogger in reserve, defence and national security.

Great diagram. Highlights the flawed design. T64/72/80 and 90 series tanks all have the same flawed design. Eg mounting the autoloader and ready to fire ammunition on the autoloader carousel. Any hit to the turret neck will result in secondary explosion killing all crew and total loss of tank.

### Russia loses 'one third' of ground force in Ukraine according to UK

Pretty much my point that Scotland isn't getting all the defence contracts. The value in the ships isn't really the metal bashing it's all the stuff inside it. While it does generate wages that's about it. Scotland doesn't make the steel, engines, systems, missiles etc etc that all comes from around the U.K.
