## **Mixtures and Solutions Games - Team Patton**

In our everyday lives we use materials of different natures or different appearances. These materials can be classified into two categories; Pure substances: made up of a single component (a single type of atom or a single type of molecule) Mixtures: made up of several components Within the category of mixtures, it is possible to distinguish between homogeneous and heterogeneous mixtures.

## **Substances versus mixtures - interactive simulations ...**

Solutions and Mixtures Before we dive into solutions, let's separate solutions from other types of mixtures. Solutions are groups of molecules that are mixed and evenly distributed in a system. Scientists say that solutions are homogenous systems. Everything in a solution is evenly spread out and thoroughly mixed.
