I like the 3D mode, in which the D3000 magically moves the sensor around on its own to track the subject, if either it or you move. You set this at: MENU > CAMERA > AF area mode > 3D-tracking > OK. Once set, you're all set for shooting anything from sports to still lifes, since the default AF-A mode magically optimizes the D3000 for everything. All you do is pick a sensor for starters and go.
